

**Ascend Tools**

**7" Wire Rope & Electrical Cable Cutters**

Designed to cut wire rope and electrical cables neatly and accurately with minimal force. The slim design, long handles for its size, and opening spring makes it a very powerful and comfortable cutting tool.

- Cuts up to 5mm Stainless Steel Wire

Part No. \_\_\_\_\_  
VT-WRC-835-07

**C-12 Felco Wire Cutters**

Swiss made Felco cutters are world-renown for their precision manufacturing and cutting capabilities. Lightweight and strong.

- Cuts up to 12mm Steel and 6mm Stainless Steel Wire

Part No. \_\_\_\_\_  
RT-WC12

**Ascend Tools 8" Shears**

Kevlar, Dyneema, Vectran, Spectra, Technora, Nomex, Innegra, Dacron, Fiberglass, Carbon Fiber

Blades made of hardened high carbon alloy steel, designed for cutting high-tech materials. One blade is micro-serrated to avoid slippage and the other can be sharpened to extend the life.

Part No. \_\_\_\_\_ Description  
ATI-802 ..... 8" Ascend Tools Shears

**New England Uni-Fid II Splicing Kit with Instructions**

Splicing kit for braided line from 1/4" to 1". Kit includes 2 aluminum fids and instructions for double braid, single braid, and parallel core rope.

Part No. \_\_\_\_\_  
NEFID

Splicing Instructions:  
<https://www.neropes.com/services/splicing/>

**Samson Splicing Kit for 1/4"-1/2" Double Braid**

Splicing kit includes 5 tubular fids (1/4", 5/16", 3/8", 7/16" and 1/2"), 1 pusher and instructions for double braid splices.

Part No. \_\_\_\_\_  
SAFID-SPLICEKIT

**Davis Instruments Deluxe Rigging Knife**

Davis Instruments' Deluxe Rigging Knife is specially designed to cut heavy dock lines and ropes. It is a sailing knife with dura-edged blades and is made from stainless steel. It includes a marlin spike, shackle key, and screwdriver.

Part No. \_\_\_\_\_  
DAV1551

**Dillon Quick-Check Tension Meter**

The Dillon Quick-Check Tension Meter is a highly accurate instrument shipped in a durable heavy duty carry case, programed to calculate and post real time wire tension for standing rigging ranging from 3/16" up to and including 7/8" as well as metric wires within the same range. The Dillon can post wire tension measurements on its integral LED display for both 1x19 and Compact Strand wire construction in less than 5 seconds without having to rely on correction or lookup tables.

Best for big boat and catamaran rigging

Accurate Tension Read up to 10,000 lbs (4,536 kgs)

Part No. \_\_\_\_\_ Description  
DILAWT05-508111..... Dillon Quick-Check Tension Meter

**Wire & Rod Tension Gauges**

Loos Standard Models A & B

Specially designed for accurate tuning of standing rigging. Manufactured of rugged anodized aluminum; the gauge is corrosion-resistant and will last for years.

Part No. \_\_\_\_\_ Description  
LOOS91A.....Gauge for Wire diameters 3/32", 1/8" & 5/32"  
LOOS90B.....Gauge for Wire diameters 3/16", 7/32", 1/4" & 9/32"

**Loos Professional Models**

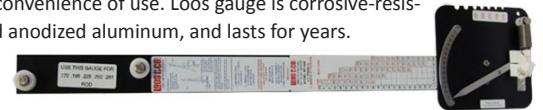

Higher accuracy and easier to use than standard models. Adjust the cable while the gauge remains on the cable.

Part No. \_\_\_\_\_ Description  
LOOSPT-1.....Pro Gauge for Wire diameters 3/32", 1/8" & 5/32"  
LOOSPT-2..... Pro Gauge for Wire diameters 3/16", 7/32", 1/4"  
LOOSPT-3.....Pro Gauge for Wire diameters 1/4", 5/16", 3/8"

**Loos Rod Rigging Gauges**

Similar in operation to Loos Professional Wire Gauges; provides durability, accuracy, and convenience of use. Loos gauge is corrosive-resistant, made of rugged anodized aluminum, and lasts for years.

Part No. \_\_\_\_\_ Description  
LOOSRT-10..... Rod Rigging Gauge for -4, -6, -8, -10, and -12 Rod  
LOOSRT-11..... Rod Rigging Gauge for -12, -12 and -22 Rod

**Harken Bosun's Chair**

Ensures a comfortable seat that allows you to work aloft with confidence. Seat made from heavy-duty polyester canvas with 1" foam padding, and includes adjustable safety belt and two roomy pockets.

Part No. \_\_\_\_\_  
H2234

Lanocote®

Lanocote® displaces water, absorbs corrosion, forms moisture barrier, and penetrates with high lubricity. Prevents dissimilar metal galvanization. Prevents corrosion of all types of metals; formulated to withstand salt water marine conditions. Particularly useful in preventing thread seizure due to all types of corrosion.

Table with 2 columns: Part No., Description. Rows include FOR770001 (Lanocote® 4 oz. jar) and FOR770003 (Lanocote® 16 oz. jar)

Marelube

The Ultimate in Corrosion Protection. Designed specifically for high load/extreme pressure anti-corrosion, anti-seize, and bi-metal barrier applications. Completely waterproof, tenacious, synthetic grease containing 45% PTFE sub-micron size powder. The highest percentage PTFE available anywhere. Won't wash away in fresh or salt water, or detergents.

Table with 2 columns: Part No., Description. Rows include FOR770065 (Marelube TEF 45, 6 cc Syringe), FOR770066 (Marelube TEF 45, 30 cc Syringe), and FOR770067 (Marelube TEF 45, 4 oz jar)

Loctite

Protects thread from rust and corrosion. Prevents loosening and leakage from shock and vibration. Removable with heat and hand tools.

Table with 2 columns: Part No., Description. Row includes HHFG983 (Harken Red Loctite 277. 10 ML Tube)

Life-Calk

A long lasting, permanently flexible marine polysulfide sealant that can be sanded, painted, and used above and below the waterline. Can be used for installation of mechanical rigging terminals to prevent water intrusion.

Table with 2 columns: Part No., Description. Rows include LIFECALK (Boat Life Life-Calk 3 oz Tube) and LIFECALKCART (Boat Life Life-Calk Cartridge; 1/12 Gal.)

Harken Winch Grease

You should service your winches at least once during the season. However, twice a season is best if your boat lives in salt water. If you race your boat hard, you may want to service your winches before every regatta. Keep your winches clean and operating smoothly by flushing frequently with fresh water. Check pawls and springs, bearings, gears, and spindles for signs of wear and corrosion.

Table with 2 columns: Part No., Description. Row includes HBK4513 (Winch Grease 3.5 oz (100 ml) Tube)

Lewmar Gear Grease

High quality, complex calcium sulphonate based grease with exceptional performance properties. Solid activation to aid load carrying characteristics of a winch. Recommended for lubrication of winches, windlasses, steering gears, bearings, trailer wheel bearings, hydraulic equipment, outboard engines and other marine application.

Table with 2 columns: Part No., Description. Row includes LEW19701000 (Winch Grease 3.5 oz (100 ml) Tube)

McLube™

High performance dry lubricant that repels water, dirt, salt, and contaminants. Reduces drag in air and water, and is clean, dry, and easy to use. Makes sails, hulls, rigging, deck hardware, and anything that moves on your boat run smoother, work more efficiently and last longer than you ever thought possible. It dries quickly to a hard, smooth, ultra-slick, hydrophobic dry coating that bonds tenaciously to almost any surface. And because Sailkote is a dry lubricant, it will not attract dirt or contaminants and will not transfer to other surfaces, or you.

McLube

Table with 2 columns: Part No., Description. Rows include MCL08OZ (Sailkote™ Lubricant, 8 oz. aerosol), MCL-QT (Sailkote™ Lubricant, 1 quart liquid), and MCLGAL (Sailkote™ Lubricant, 1 gallon liquid)

McLube Hullkote™

High performance speed polish for use on fiberglass, metal, plexiglass and painted surfaces. Cleans, polishes, and protects while reducing drag and repelling water. Provides superior UV protection.

Table with 2 columns: Part No., Description. Row includes H7880 (Hullkote™ Speed Polish, 1 pint)

McLube Antifoul Alternative™

High gloss polish that inhibits marine growth below the waterline and keeps your hull fast and clean for weeks at a time. Citrus based and fully biodegradable, this breakthrough product is quick and easy to apply. Aggressively tested on V070s, one-design keelboats, RIBS, and powerboats worldwide.

Table with 2 columns: Part No., Description. Row includes H7881 (Antifoul Alternative Speed Polish, 1 Pint)

McLube Onedrop™

Only one drop of this conditioner repels salt, dirt, and other deposits to protect, lubricate and condition bearing surfaces. For use on Harken travelers and Battcars. Reduces friction so balls roll freely and evenly, greatly improving traveler performance.

Table with 2 columns: Part No., Description. Row includes H7875 (Onedrop™ Ball Bearing Conditioner)
